

# Barracuda Web Filter

Powerful, easy to use, and affordable content filtering and spyware protection.

The Barracuda Web Filter is a complete content filtering and application blocking solution designed to enforce acceptable Internet usage policies. The Barracuda Web Filter includes powerful, award-winning spyware and virus protection. With no per user license fees, the Barracuda Web Filter offers the most affordable content and spyware protection available.

## Flexible, Comprehensive Filtering

Designed for the enterprise, the Barracuda Web Filter enables organizations to set up custom policies for particular users and groups across multiple time zones. The Barracuda Web Filter integrates with popular LDAP directory servers, such as Microsoft Active Directory, for both authentication and group membership information.

With Web security at the gateway, the Barracuda Web Filter prevents new spyware and virus infections as they attempt to penetrate the network. By adaptively targeting those machines that are infected, the Barracuda Web Filter provides widespread spyware protection and removal without requiring preloaded client software for every machine on the network.

## Ease of Use and Maintenance

With no software to install or network modifications required, the Barracuda Web Filter is easy to set up. Energize Updates are delivered automatically by Barracuda Central, an advanced technology center where engineers work continuously to provide the most effective methods to combat the ever changing spyware and virus variants. Energize Updates, including the latest spyware definitions, virus definitions, content filter categories and security updates, are distributed hourly for continuous protection against the latest threats.

The Barracuda Web Filter monitors attempted policy violations, blocked spyware downloads, blocked virus downloads and infected clients.

## Typical Deployment

## TECHNICAL SPECIFICATIONS

### Security Features

#### CONTENT FILTERING

- Category filtering
- HTTP/HTTPS support
- URL filtering
- Image safe search
- File type blocking
- Open proxy blocking

#### APPLICATION CONTROL

- IM blocking
- Internet application blocking
- IP and port blocking

#### ADVANCED POLICY CREATION

- Default guest and user policies
- User and group policy exceptions
- LDAP directory server/NTLM integration
- Windows domain controller integration
- Local users and groups
- Network IP address policies
- Time-of-day policies
- Custom categories

#### NETWORK THREAT PROTECTION

- Spyware site blocking
- Spyware download blocking
- Dual-layer virus protection

#### NETWORK THREAT PROTECTION (cont.)

- Detection of infection activity
- Spyware protocol blocking

#### SPYWARE REMOVAL

- Remove spyware from Windows computers
- Downloaded as an ActiveX control

### System Features

- Web-based interface
- Statistical reports
- Comprehensive logging
- Secure remote administration
- Web acceleration/caching
- Traffic reporting

### Hardware Features

#### CONNECTORS

- Standard VGA
- PS/2 keyboard/mouse
- Ethernet (see chart below)
- Serial port (DB-9)

#### FRONT PANEL INDICATORS

- Power indicator
- Disk activity indicator
- Spyware blocked indicator

#### FRONT PANEL INDICATORS (cont.)

- Virus blocked indicator
- Data transmission indicator
- Power button
- Reset button

#### INTEGRATED REPORTING ENGINE

- Graphical summaries
- Detailed user and group reports
- Time/Session reporting
- Scheduled reports
- Report export

#### POWER REQUIREMENTS

- AC input voltage 100-240 volts
- Frequency 50/60 Hz

### Support Options

#### ENERGIZE UPDATES SUBSCRIPTION

- Standard technical support
- Hourly spyware rule and definition updates
- Hourly virus definition updates
- Hourly content filter database updates
- Hourly Spyware Removal Tool updates

#### INSTANT REPLACEMENT SERVICE

- Replacement unit shipped next business day
- 24x7 technical support
